Independent Auditor's Report

Board of Trustees
Board of Trustees of Wichita State University
Wichita, Kansas

We have audited the accompanying financial statements of the governmental activities and each major fund of the Board of Trustees of Wichita State University (Board), a component unit of Wichita State University, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Board's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Board as of June 30, 2017, and the respective changes in financial position thereof and the general fund budgetary comparison for the governmental funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board's basic financial statements. The accompanying supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Management's Discussion and Analysis
Year Ended June 30, 2017

Introduction

Our discussion and analysis of the Board of Trustees of Wichita State University (Board) financial performance provides an overview of the Board's financial activities for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information provided in the basic financial statements.

The Board is a governmental entity responsible for the management of the mill levy monies arising out of the tax levy upon the citizens of Sedgwick County, Kansas and was established for the education enrichment purposes of Wichita State University (WSU) as a whole, including all the colleges and branches or divisions thereof as well as all the facilities and activities thereof, consistent with the objectives, operation and management of WSU. The Board is also responsible for the endowed funds of the University of Wichita (University) before the University became a state institution in 1964.

Financial Highlights

The Board's net position decreased by \$238 thousand or approximately 1.1% from 2016. During the year, the Board had total revenue of \$10.97 million and total expenditures of \$11.21 million. Revenue increased by \$1.23 million over 2016, mainly due to a \$1.30 million increase in investment returns. Expenditures increased by \$2.87 million almost entirely due to a \$2.50 million contribution to the WSU Foundation for a new Student Athlete Success Center.

Overview of Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the Board's basic financial statements. These basic financial statements are composed of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Board's finances in a manner similar to a private-sector business. The statement of net position presents information on all of the Board's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Board is improving or deteriorating. The statement of activities presents information showing how the Board's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flow changes only in future fiscal periods (for example, salaries and benefits earned but unpaid as of year-end).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Board, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Governmental

funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. The Board maintains two governmental funds: the general fund and the permanent fund.

The Board adopts an annual mill levy budget. A budgetary comparison has been provided for the mill levy as supplemental information to the financial statements.

Notes to Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the Board's financial position. In the case of the Board, as of June 30, 2017, assets decreased by \$7.36 million and liabilities decreased by \$7.12 million from June 30, 2016.

The Board contributed \$2.50 million to the WSU Foundation for the Student Athlete Success Center. \$21.62 million of cash was spent on the Experiential Engineering Building and related Innovation Campus infrastructure and depreciable capital assets increased \$45.55 million as construction in progress decreased \$30.34 million. Total liabilities decreased \$7.12 million mainly due to a \$5.34 million reduction in accounts payable related to construction projects. The Series 2013-1 bonds matured during fiscal year 2017 resulting in a reduction of long-term liabilities of \$1.50 million. The Series 2014-3 and 2014-4 Revenue Bonds were transferred back to the Sedgwick County Public Building Commission and the related asset was leased back as a capital lease.

The \$1.23 million increase in General Revenue between fiscal years 2016 and 2017 resulted primarily from the \$1.30 million increase in investment income.

Expenditures increased by \$2.87 million between fiscal years 2016 and 2017 with the majority of the increase related to scholarships and other student support, which increased \$3.12 million. As stated previously, a \$2.5 million contribution was made for the Student Athlete Success Center Land. In addition, spending on scholarships increased \$620 thousand in 2017.

Capital Assets

As of June 30, 2017, the Board had \$76.4 million invested in capital assets.

Depreciable capital assets, net	<u>\$ 48,400,926</u>	<u>\$ 2,848,870</u>

Capitalized leased properties are improvements used to support the operations of WSU. The improvements were made utilizing proceeds from current or prior bond obligations. Leases on these improvements serve as collateral for outstanding long-term obligations. Construction in progress relates to expenditures on the Experiential Engineering Project. During 2017, \$16.40 million was added to construction in progress related to the Experiential Engineering Project and the substantially completed building was transferred to the Sedgwick County Public Building Commission and then leased back as a capital lease property.

Debt Administration

At June 30, 2017, the Board had \$46.7 million in bond and capital lease obligations outstanding versus \$49.1 million in bond and capital lease obligations at June 30, 2016.

	<u>2017</u>	<u>2016</u>

Unamortized bond premiums	-	2,659,908
Total long-term obligations	<u>\$ 46,736,679</u>	<u>\$ 49,102,828</u>

In February 2017, the Board made the final payment on the Series 2013-1 bonds. The Series 2014-3 and Series 2014-4 were issued in December 2014 and originally recorded as outstanding bonds. During 2017 the substantially completed construction in process related to the Experiential Engineering Project and the Series 2014-3 and Series 2014-4 revenue bonds were transferred to the Sedgwick County Public Building Commission and replaced with a capital lease obligation.

Economic Factors and Next Year's Budget

The Board's appointed trustees considered many factors prior to adopting the fiscal year 2017 budget.

The major factor that influences the budget for fiscal year 2017 is the anticipated level of tax revenue received from Sedgwick County. The source of the tax revenue is property taxes from the \$1.5 mill levy assessed on the valuation of taxable property in Sedgwick County. The executive director of the Board of Trustees works with officials of the City of Wichita and Sedgwick County to determine the estimated revenue for the next budget year.

Request for Information

This financial report is designed to provide a general overview of the Board's finances for all those with an interest in the Board. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Troy Bruun, Associate Vice President, at 316.978.5585.

Board of Trustees of Wichita State University (A Component Unit of Wichita State University)

Notes to Basic Financial Statements

June 30, 2017

Note 1: Organization and Summary of Significant Accounting Policies

Reporting Entity

Board of Trustees of Wichita State University (Board) is a governmental entity responsible for the management of the mill levy monies arising out of the tax levy upon the citizens of Sedgwick County, Kansas and was established for the education enrichment purposes of Wichita State University (WSU) as a whole, including all the colleges and branches or divisions thereof as well as all the facilities and activities thereof, consistent with the objectives, operation and management of WSU. The Board is also responsible for the endowed funds of the University of Wichita (University) before the University became a state institution in 1964.

The Board was established under State of Kansas statute 76-3a16 and for accounting purposes is a component unit of WSU which is a component unit of the State of Kansas. The Board is not financially accountable for any other organizations. The financial statements reflect the operations of the Board and do not reflect the complete operations of WSU or the State of Kansas. As such, the Board's financial results are included in the State of Kansas's Comprehensive Annual Financial Report.

As required by accounting principles generally accepted in the United States of America, these basic financial statements present the financial activities of the Board. The Board follows the Governmental Accounting Standards Board (GASB) accounting pronouncements, which provide guidance for determining the governmental activities, organizations and functions that should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's governing body as the basic criterion for including a possible component governmental organization in the primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements (*i.e.*, the statement of net position and the statement of activities) report information on all of the Board's financial activities. Governmental activities are normally supported by taxes and intergovernmental revenue.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows.

Notes to Basic Financial Statements

June 30, 2017

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, the operating statement presents increases and decreases in net current assets and unassigned fund balance is a measure of available spendable resources. This means that only current liabilities are generally included on the governmental fund balance sheet.

The statement of net position does not equal the governmental funds balance sheet at June 30, 2017, due to net capital assets and certain liabilities that are not payable from available spendable resources in the statement of net position. See discussion regarding GASB 34 Items column below.

Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. Measurable means the amount of the transaction can be determined; available means collectible within the current period, or soon enough thereafter, to pay liabilities of the current period. Revenues are considered to be available if collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred and is expected to be paid from available spendable resources.

GASB 34 Items Column

The GASB 34 Items column on the governmental funds balance sheet/statement of net position represents the recording of capital assets, certain liabilities and deferred inflows of resources as required by GASB 34 and other GASB pronouncements.

The GASB 34 Items column on the statement of governmental fund revenues, expenditures and changes in fund balance/statement of activities is comprised of the following for the year ended June 30, 2017:

Amounts reported for the General Fund are different from the statement of net position because of:

Compliance

Budget

An annual budget is adopted on a basis consistent with budgetary basis. The budget is based on receipts from the property tax mill levy and includes only the Mill Levy Fund and the Plant Fund included in the Supplementary Information and therefore does not reconcile back to the basic financial statements. The Board does not budget for the General Fund. Only for the Mill Levy Fund.

WSU prepares the annual budget for the mill levy and presents it to the Board for review and approval. During the year ended June 30, 2017, the budget for the mill levy had been approved by the Board, the City of Wichita, Sedgwick County and the Kansas Board of Regents. Total expenditures for the mill levy may not legally exceed the amount appropriated.

Fund Financial Statements

In order to ensure observation of limitations and restrictions placed on the use of the resources available to the Board, the accounts of the Board are maintained in accordance with the principles of “fund accounting.” This is the process by which resources for various purposes are classified for accounting and reporting purposes into funds that are in accordance with activities or objectives specified. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been combined into fund groups. For financial reporting, the major funds have been grouped and are presented in this report as follows:

General Fund

The General Fund is further divided internally into the following:

Operating Fund – This fund is used to account for unrestricted revenue and related operations of the Board and to acquire and maintain property.

Mill Levy Fund – This fund is comprised of monies arising out of the tax levy upon the citizens of Sedgwick County, Kansas.

Student Loan Fund – This fund is comprised of a designated sum of money and other resources segregated for the purpose of providing loans to students.

Permanent Fund

Endowment and similar funds – This fund is comprised of endowment, restricted and committed funds. Endowment funds consist of investments or property, the principal of which is to remain intact with only the income available for expenditure. Restricted funds are expendable for scholarships and other student funds. Committed funds, while established by the Board for the same purposes as endowment funds, may be expended at the discretion of the Board. Committed funds in the Maintenance Fund are committed for facility maintenance.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Board to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risk Management

The Board is exposed to various risks of loss from torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. Commercial insurance coverage is purchased for claims arising from such matters. No claims have exceeded the amounts of coverage provided by these policies in any of the past three fiscal years.

Cash Available From County Treasurer

Cash available from county treasurer represents mill levy monies collected by Sedgwick County and expected to be distributed to the Board by the end of calendar year 2017.

Cash Held for Project Fund

Cash held for project fund represents proceeds received from the issuance of the Series 2014 bonds to be expended on the Experiential Engineering Project.

Investments and Investment Return

Investments are stated at fair market value. All realized and unrealized gains and losses are accounted for in the fund which owned such asset.

Investment earnings (losses) consist of interest and dividend income and the net change for the year in the fair value of investments carried at fair value.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are recorded at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation is provided on the straight-line method over the lease term for capitalized lease properties. Depreciation on all other capital assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	20-50 years
Improvements	7-40 years
Machinery and equipment	5-10 years

Net Position

Net position of the Board is classified in four components. Net investment in capital assets, consist of capital assets net of accumulated depreciation and reduced by the outstanding balances of borrowings used to finance the purchase or construction of those assets. Restricted expendable net position is noncapital assets that must be used for a particular purpose as specified by creditors, grantors or donors external to the Board, including amounts deposited with trustees as required by bond indentures, reduced by the outstanding balances of any related borrowings. Restricted nonexpendable net position is noncapital assets that are required to be maintained in perpetuity as specified by parties external to the Board, such as permanent endowments. Unrestricted net position is remaining assets less remaining liabilities that do not meet the definition of net investment in capital assets or restricted.

Fund Balance – Governmental Funds

The fund balances of the Board’s governmental funds are displayed in four components:

Nonspendable – Amounts that are not in a spendable form or are required to be maintained intact.

Committed – Amounts that can be used only for the specific purposes as approved by the Board. Commitments may be changed or lifted only by the Board taking the same formal action that imposed the constraint originally.

Assigned – Amounts intended to be used by the Board for specific purposes as determined by management. In governmental funds other than the General Fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the General Fund and includes all amounts not contained in the other classifications.

**Board of Trustees of Wichita State University
(A Component Unit of Wichita State University)**

Notes to Basic Financial Statements

June 30, 2017

The Board considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Board applies assigned amounts first and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

At June 30, 2017, internally designated funds were assigned in the following manner:

Scholarships and student support	\$ 5,071,952
Economic and community development	1,238,736
Campus development	2,193,814
Debt service	1,055,995
Operations	<u>76,944</u>
	<u><u>\$ 9,637,441</u></u>

Income Taxes

The Board is generally exempt from federal and state income taxes under Section 115 of the Internal Revenue Code and a similar provision of state law. Accordingly, no provision for income taxes is included in the financial statements.

Note 2: Deposits, Investments and Investment Return

Deposits

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it.

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities or the state of Kansas; bonds of any city, county, school district or special road district of the state of Kansas; bonds of any state; or a surety bond having an aggregate value at least equal to the amount of the deposits.

At June 30, 2017, \$3,427,516 of the Board's bank balances of \$3,677,516 were exposed to custodial credit risk. Deposits are covered by federal depository insurance up to \$250,000. The excess is covered by collateral held in the pledging bank's trust department in the Board's name. Fair value of pledged collateral is maintained at levels in excess of uninsured deposit balances.

Notes to Basic Financial Statements

June 30, 2017

Investments

The Board may legally invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agencies and instrumentalities and in bank repurchase agreements. It may also invest to a limited extent in corporate bonds and equity securities.

At June 30, 2017, the Board had the following investments and maturities:

Investment Type	Fair Value	Maturities in Years		
		Less than 1	1-5	Greater than 5
Money market funds	\$ 2,588,017	\$ 2,588,017	\$ -	\$ -
Fixed income mutual funds	1,162,726	55,662	233,057	874,007
Fixed income credit investments	274,871	-	-	274,871
		<u>\$ 2,643,679</u>	<u>\$ 233,057</u>	<u>\$ 1,148,878</u>
Pooled investment (managed by related party)	6,313,052			
Equity mutual funds	2,229,749			
Common stock	519,381			
	<u>\$ 13,087,796</u>			

The following classifies investment type by purpose at June 30, 2017.

Investment Type	Cash Held for Projects	Endowed Funds	Maintenance Funds	Gore Trust Funds	Total
Money market funds	\$ 2,531,137	\$ -	\$ -	\$ 56,880	\$ 2,588,017

Equity mutual funds	-	-	-	2,229,749	2,229,749
Common stock	-	-	-	519,381	519,381
Total investment	<u>\$ 2,531,137</u>	<u>\$ 5,961,663</u>	<u>\$ 351,389</u>	<u>\$ 4,243,607</u>	<u>\$ 13,087,796</u>

Interest Rate Risk – As a means of limiting its exposure to fair value losses arising from rising interest rates, the Wichita State University Foundation (Foundation) (see *Note 7*) investment policy followed by the Board includes ongoing assessment of the composition of fixed income investments to total investments.

Board of Trustees of Wichita State University

Notes to Basic Financial Statements

June 30, 2017

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. The Board requires investments to be maintained in accordance with the Wichita State University Foundation investment policy.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Board will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Of the Board’s \$13.09 million of investments, \$13.09 million (including \$6.3 million managed by a related party) of the underlying securities are held by the investment’s counterparty, not in the name of the Board, and are therefore exposed to custodial credit risk.

Concentration of Credit Risk – The Board places no limit on the amount that may be invested in any one issuer. At June 30, 2017, the Board’s investment in a pooled investment managed by a related party constituted 48.2% of its total investments.

Summary of Carrying Values

The carrying values of deposits above are included in the governmental funds balance sheet/statement of net position as follows:

Carrying value	
Deposits	<u>\$ 3,677,516</u>

Note 3: Endowments and Similar Funds

The Board has established an investment policy with the objectives of protecting the principal of these funds and maximizing total investment return without assuming extraordinary risks. It is the goal of the Board to provide spendable income levels that are reasonably stable and sufficient to meet budgetary requirements and to maintain a spending rate, currently established at 4.25%, which ensures a proper balance between the preservation of corpus and enhancement of the purchasing power of investment earnings. As of June 30, 2017, the Board had a total of \$252,950 of net appreciation from investment of donor-restricted endowments available for expenditure. This amount is reported in expendable restricted net position on the statement of net position. The laws of the State of Kansas do not currently restrict the Board’s ability to spend net appreciation on donor-restricted endowment funds.

Note 4: Disclosures About Fair Value of Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2017:

	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Notes to Basic Financial Statements

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Board has no investments classified as Level 3.

Notes to Basic Financial Statements

June 30, 2017

In November 2001, the Wichita Public Building Commission (PBC) issued \$17,295,000 of Series L, 2001 Refunding Revenue Bonds. The PBC acquired, as landlord, various properties adjacent to or near WSU to lease to the Board for a period ending when all of the outstanding bonds issued by the PBC to acquire the properties have been retired. During 2014, the PBC refunded the Wichita Public Building Commission Series L, 2001 Refunding Revenue Bonds with the Sedgwick County Public Building Commission Revenue Bonds, Series 2013-1 in the amount of \$5,375,000 on behalf of Sedgwick County, Kansas (the County). The bonds issued bear interest, payable semiannually, at nominal rates of 4.00% and 5.00%, which begin February 1, 2014, and continue until 2017. The bonds were sold at a premium of approximately \$435,000, which reduces the effective interest rate on the bonds to approximately 0.9%. The Board leases the property from the County and is accounting for this as a capital lease. The lease was paid in full in February 2017.

During 2015, the Board issued Sedgwick County Public Building Commission Revenue Bonds, Series 2014-3 and Series 2014-4 in the amounts of \$38,895,000 and \$6,050,000, respectively. The Series 2014-3 bonds issued bear interest, payable semiannually, at nominal rates of 3.40% to 5.00%, which begin August 2015 and continue until 2054. Annual principal payments begin February 2027 and continue until 2054. The bonds were sold at a premium of approximately \$2.76 million, which reduces the effective interest rate on the bonds to approximately 4.25%. The Series 2014-4 bonds issued bear interest, payable semiannually, at nominal rates of 1.95% to 3.90%, which begin August 2015 and continue until 2027. Annual principal payments begin February 2018 and continue until 2027. The proceeds from the bonds are held in money market accounts with Sedgwick County and are restricted for the construction of the Experiential Engineering Project.

During 2017, the Experiential Engineering Building was substantially completed. The construction in progress and Series 2014-3 and Series 2014-4 revenue bonds associated with the project were transferred to the Sedgwick County Public Building Commission (PBC) at the fair value of the building, totaling \$46,736,679. Future payments will continue in accordance with the original Series 2014-3 and Series 2014-4 revenue bonds noted above. The Board then leased the building back from the PBC. The effective interest rate of this capital lease, based on the payment terms is 4.14%. The transfer resulted in a gain of \$771,498. This gain is deferred and shown on the statement of net position as a deferred inflow of resources and will be recognized over the remaining term of the lease.

Note 7: Related Party Transactions

Certain assets related to endowed funds were transferred to the Foundation for management in accordance with a management services agreement. Cash and certain investments were combined with Foundation accounts. The amount of assets, consisting of investments, pooled with Foundation accounts totaled \$6,313,052 at June 30, 2017. The Foundation charges the Board an annual fee of \$12,500 for time spent by Foundation employees on Board business.

The Series 2014-4 Bonds required a \$2,000,000 sublease payment to be paid to the Board from WSU. WSU paid \$2,200,000 to the Board to help fund the Experiential Engineering Project and pay the sublease payment.

During 2017 the Board contributed \$2,500,000 to the Foundation for the Student Athlete Success Center Land.
