SEMESTER 1 + SEMESTER 2 + SEMESTER 3 + SEMESTER 4 = GRADUATION!

Master's Degree LID
IDPP Certificate
OLET Certificate

Typical potential careers recent graduates have pursued are: Curriculum Coordinator, Instructional Designer, Corporate Trainer, Learning Strategies Director, Educational Consultant, Educator/Instructor.

The MEd in Learning and Instructional Design allowed me to tailor my path to exploring learning theories and instructional design beyond traditional K-12 education. Exceptional professors with invaluable expertise and a willingness to tailor course projects for your educational context inside a traditional classroom and beyond provided me with exposures I may not have otherwise had. -Lyndsie Thurnau, 2023 MEd LID Graduate
