

Talent Management Revisioning Update and Introduction

Vicki Whisenhant

Executive Director Human Resources

4/24/2023

Talent Management Revisioning Project

Talent Management refers to the strategy of an organization related to attracting, recruiting, retaining and developing people.

It spans the life cycle of an employee – starting with attracting them as a candidate who is matched to organizational needs, then developing their skills and expertise as an employee to retain them in a position that nurtures commitment and engagement and achieves desired results.

Talent Management Revisioning

- 2020 Talent Management Revisioning Recommendation
 - Revisioning Project team members included representation from all areas for both Operational Leadership and Functional Leadership
 - Project team reviewed current processes, identification of gaps, and creation of vision for talent management at Wichita State
 - Identified and recommended vendor
- 2023 Approved vendor and project
 - First project focus will be on Talent Recruitment, Sourcing, and Onboarding 2023
 - Second project focus will be on Learning, Performance and Succession 2024
