

## Amendments to General Education Transfer proposal submitted in advance of the March 31, 2023 meeting

1. Amend to remove the requirement of 3 hours of First-Year Seminar from Bucket #7. [This would have the effect of making FYS no longer a General Education requirement.]
2. Amend to allow First Year Seminar (FYS) courses to be counted as a disciplinary course in Bucket #5 or #6, as originally proposed by the General Education Committee.

### Notes on procedure:

Amendments proposed in advance of the meeting will still need a formal motion, second, discussion, and vote in the meeting.

In light of our time constraints and the need to be efficient, amendments proposed in advance will be raised in logical order in the meeting (as listed above), not in the order in which they were submitted. New amendment proposals will not be entertained until those submitted in advance have been entertained.

This document will be updated as any new proposals are submitted.

Best wishes,

Susan Castro

Faculty Senate President
