## Faculty Senate Meeting Minutes Monday, May 11, 2020

3:30 - 5:00 pm (Virtual Meeting via Zoom)

Senators Present: Bailey, Barut, Billingham, Bowen, Bray, Buerge, Bukonda, Carlson, Castro, Celestin, Clawson, Core, Decker, Dowling, English, Figy, Flynn, Granada, Hakansson, Hammond, Harrison, Hill, Hull, Jarman, Kalomo, Lee, Lockard, Marble-Flint, Markova, Millar, Moody, Mozzani, Muthitacharoen, Myose, Navarro, Newman, Nicks, Price, Pulaski, Ross, Schwartz, Small, Smith-Campbell, Solomey, Sternfeld-Dunn, Storrer, Sylvester, Weheba, Yildirim

Absent: Ahmed, Jeffres, Ma, Mirasol, Mullins, Popejoy, Tamtam, Zewde

## Link to attendance for 2019-2020

Agenda Item	Process / External Link	Notes and Outcome/Action/Completed
Call to order		3:30 pm
Informal statements		None
& proposals		
Approval of minutes	<u>April 27, 2020</u>	Moved & seconded, approved unanimously
President's Report	Senate President Jarman	<ul> <li>Return to campus training / video</li> <li>Good supervisor video is already available, employee version is coming soon</li> <li>Masks for employees will be available and cleaning material will be available soon</li> <li>Summer &amp; fall classes</li> <li>Summer classes will all be online or remote</li> <li>Fall classes still in the works – trying to get classes that MUST meet in-person into larger rooms, but classes that were originally in those rooms will be displaced [because social distancing requirements are not being met (i.e. class enrollment exceeds new quota)]</li> <li>Townhall</li> <li>There were 500 participants in the first townhall, and 700 in the second</li> <li>There may be another townhall on the Friday before Memorial day</li> <li>Please send suggestions for topics &amp; questions to be covered to Senate President Jarman</li> <li>A senator asked if there will be a graduation ceremony; response by Senate President Jarman: there will be a physical ceremony in October, students can also walk in the December ceremony; Provost Muma also responded that there will be a virtual ceremony on 16 May</li> <li>Convergence science proposal deadline has been extended to 8 June (instead of 1 June)</li> <li>The Student Government Association passed a resolution (link here) requesting that faculty relax the requirements for semester grade; Senate President Jarman commented that this is another sign that students are anxious about their grades</li> <li>President's Distinguished Service Award &amp; Faculty Award winners were mentioned &amp; congratulated</li> </ul>
<b>Committee Reports</b>	Rules: Aleks Sternfeld-Dunn Other committee reports	Rules committee recommended Kelly Johnson (Digital Arts) & Jim Bann (Math/Natural Science) to fill open slots in next year's Senate – Senators voted to pass this recommendation
Point of Personal	Senate President Jarman	• Some of the accomplishments during this year: welcomed the Interim President, passed a new

Privilege (Remarks)	General Education program for the university, passed a new faculty workload policy,
	welcomed the new President, and then the challenges associated with the Coronavirus
	• Thanks from Senate President Jarman to:
	o Provost Muma for always keeping in contact with the Senate & Senate Executive team;
	many Provosts in the other [KBOR] schools do not include the Senates in the loop [for
	communications and "goings on"]
	<ul> <li>Lee Ann Birdwell, staff secretary for the Senate, for all her help and support</li> </ul>
	○ The Senators as well as faculty serving in committees – without their time & commitment,
	it would be difficult to accomplish everything that needs to be done at this university
	<ul> <li>Members of the Senate Executive team including Betty Smith-Campbell, Aleks Sternfeld-</li> </ul>
	Dunn, Gery Markova, Roy Myose, Jeff Pulaski, Whitney Bailey, and Susan Castro – we
	met every Monday [for the Senate or Executive Committee meetings], for frank
	discussions to make the Senate run better; it has been a tremendous year, and it would not
	have been possible without everyone's help
	<ul> <li>Will present (in the future) a plaque to each Executive Committee member that is normally</li> </ul>
	presented to the Executive Committee members
As May Arise	None
Adjourn	3:50 pm

## **Faculty Senate Meeting Minutes**

## Monday, May 11, 2020 - Immediately following 2019-2020 Senate meeting

3:30 - 5:00 pm (Virtual Meeting via Zoom)

AY 2020-2021 Senators Present: Allen, Bailey, Bann, Beamer, Billingham, Bowen, Bray, Buerge, Bukonda, Byun, Carlson, Castro, Celestin, Connor, Core, Decker, Dowling, Figy, Flynn, Hakansson, Hammond, Harrison, Hull, Jarman, Johnson, Kalomo, Lee, Lockard, Marble-Flint, Markova, Millar, Moody, Mozzani, Muthitacharoen, Myose, Navarro, Newman, Parham, Price, Pulaski, Ramanan, Rawson, Ross, Schwartz, Small, Smith Campbell, Sternfeld-Dunn, Storrer, Sylvester, Weheba

Agenda Item	Process / External Link	Notes and Outcome/Action/Completed
Call to order		3:50 pm
Point of Personal Privilege (Remarks)	Senate President Sternfeld-Dunn	<ul> <li>Spoke about Past-President Jarman – he has raised the bar to a very high level which will be very difficult to follow; also learned a number of things about leadership from him; Jeff is very loyal to Wichita State and is willing to speak up when the administration is not operating in the best interests of the university</li> <li>Past-President Jarman is an avid biker – presented a WSU bike jersey as a gift</li> <li>His sense of fashion is unique – also gave a gift membership to the Bow Tie of the Month Club</li> <li>Finally, President Sternfeld-Dunn thanked Past-President Jarman for his service over the last two years and for his leadership</li> <li>President Sternfeld-Dunn expressed his view about the importance of shared governance, and asked everyone to please give feedback to him during the course of the following year</li> </ul>

Question and answer session followed		Question and answer session followed		
the program – is it guaranteed? Response: Dean Hippisley is comm pipeline; follow-up question by the Senator: this is a concern for LAS	mitted and it is in the S when there is hiring	• A Senator asked whether there is commitment from LAS for the new hire in the program – is it guaranteed? Response: Dean Hippisley is committed pipeline; follow-up question by the Senator: this is a concern for LAS whe freeze and potential furlough if this is a commitment; response by proposer		

- A Senator commented that there is high demand for interpreters and American sign language (ASL) ability, but the proposed program does not seem to include the possibility of utilizing upper level courses in ASL as electives; question was asked whether lower level ASL course will be enough [for an Applied Linguistics degree]? Mythilli Menon responded that paperwork for cross-listing the lower level ASL course was already in the pipeline this does not mean that the three upper level ASL won't count as electives, it is just that the paperwork process hasn't been started yet
- A Senator asked what an expanded program will look like and how it would be funded if it expands? Response by Mythilli Menon: this proposal is intended to be a launchpad, the Linguistics minor was started four years ago; the Applied Linguistics program has been in the works for some time and we would like it to grow, perhaps as a Master's degree program; also thinking about digital English as a potential area; new hire could fit in together with other efforts in English
- A Senator commented that he appreciated the amount of effort and thought put into the proposal and asked what the contingency plan is, for example if someone leaves or unexpected costs occur? Response by Mythilli Menon: student survey shows a strong interest in this major very confident [about demand for this major], venues to target include high schools, and already speaking to high school students
- A Senator commented that there are probably great opportunities to tie in and work together with the Modern & Classical Languages & Literatures [MCLL] department how do you envision this working? Mythilli Menon responded that a couple of classes are already crosslisted; Spanish and French majors already minor in Linguistics; double major would open opportunities for those individuals; Rachel Showstack from MCLL commented as a follow-up that there are students interested in such a double major, and it would be a good tie-in; Applied Linguistics also ties in with [health disparity] equality issues such as helping non-English speakers in a health care setting
- A Senator asked a two part question: 1) the university is not expecting significant growth in enrollment so if we do not grow [at WSU], where would students [for Applied Linguistics] come from, and 2) how was the survey mentioned in the proposal conducted? Were the survey sample students taking the Linguistics classes or were they from a random sample of the entire WSU population? Response by Mythilli Menon: want to reach out to USD 259 because we currently have students interested in teaching with USD 259; thus, we will tap into this [future] pool by making presentations in high school foreign language classes to give a better view of what applied linguistics is; in terms of the second question, students taking my courses were surveyed which consisted of students from various majors; the survey was also sent to students in the linguistics minor as well as students in lower level Linguistics classes consisting of various majors
- Doug Parham (Communications Sciences & Disorders, a co-author for the proposal) spoke in support and responded to the question raised: this program includes courses that are already being taught; in terms of where the students will come from many students select a major in the sophomore year of college after finding / learning about it [i.e., their eventual major] so an interdisciplinary major will be very attractive to many students

		• President Sternfeld-Dunn mentioned that this is a first reading of the proposal, and a second reading will occur during an August Senate meeting; there is somewhat of a timing logistics concern to have two readings of the proposal before potential KBOR presentation
<b>Future Senate</b>	Senate President Sternfeld-Dunn	• Senate meetings in the Fall semester will continue to be on Zoom so that at-risk faculty do
