

How to pay using a Wire transfer?

WSU has teamed up with Flywire to offer an innovative and streamlined way to make domestic and international wire transfers for tuition and on-campus housing payments. It's fast, simple, and cost effective from any country, any time.

flywire

How it works:

Flywire accepts payments from any country - typically in your home currency and works to secure you wholesale foreign exchange rates, which are significantly lower than rates offered by traditional banks. They eliminate hidden fees and ensure your full payments amount and identifying information arrive intact to Wichita State. Once you initiate payment, you will receive detailed instructions on how to transfer funds and you will be kept informed at every step in the process via a student dashboard. An email confirmation will be sent to you when the school receives your payment. Please note to initiate this process well in advance of late fees being assessed.
