Linda Lindsly

Congratulations to Linda Lindsly for 25 years of service at Wichita State University. Linda joined Wichita State University in 1995.

She began in the Office of Undergraduate Admissions, where she educated herself about each of the colleges within the University. She became a huge cheerleader for Wichita State University after learning about the programs and degrees offered at the University.

Linda also worked on campus for the Ronald E. McNair Scholars Program, a new TRIO Program at WSU. She worked with first generation, low income and under-represented in higher education students to help them achieve post graduate degrees. Later Linda transferred to Student Support Services, another TRIO program that worked with students to provide what they needed to succeed in college and to achieve undergraduate degrees. She worked with first generation, low income and under-represented in higher education students to help them achieve post graduate degrees. Later Linda transferred to Student Support Services, another TRIO program that worked with students to provide what they needed to succeed in college and to achieve undergraduate degrees.

In 2004, Linda moved to the Athletic Department where she provides administrative support for Volleyball, Men's and Women's Golf, Track and Field and Cross-Country programs. Linda works tirelessly to make sure her coaches in each program have everything they need. Most importantly, Linda comes to work every single day and makes a positive impact on her coworkers, our volleyball players, coaches and volleyball fans. Linda has a positive attitude and is fun to work with! In addition, Linda's work ethic is outstanding!!! She really shines when working with Shocks Match Club members and Shocker fans.

Prior to working at Wichita State University, Linda provided care to over 50 babies in the foster care system. Linda still uses the same commitment and positive energy that she used when caring for little ones in foster care. She gives her sports everything she has and more.

Thank you, Linda, and congratulations!

Shannon Lamb

Director of Volleyball Operations
