Connecting every student is not only a theme within the Division of Student Affairs it is a lifestyle for the Department of Campus Recreation. In FY 24, creating student connections was a point of emphasis throughout the department. Here is just a sampling of the different areas and spaces that connect students.

Sport Clubs & Rowing

Sport Clubs traveled over 23,000 miles and the rowing team over 4,000 miles this past year. Members of the rowing team put in over 24,000 hours of practice, meetings, and competitions throughout the year. I have to believe that many friendships and hopefully a few lifelong friendships began while practicing, competing, and traveling to represent Wichita State University around the country.

Campus Recreation created a partnership with Wichita Parks and Recreation to build a Cricket field for the club team at Dr. Glen Dey Park only a couple of miles North of campus. While cricket may not be as popular as basketball or football in the U.S., it is the world's most-watched sport after soccer. It's insanely popular in South Asia (India, Pakistan, Bangladesh, Sri Lanka, etc.) – and we have a lot of students from these countries. The International Education Department at WSU emailed all current international students as well as 108,000 international prospects. It is my hope that many hundreds of students have an opportunity to play cricket but more importantly, relax and have social time outside the classroom.

Facilities

Badminton: Having sport facilities that allow for students to gather outside the classroom is a key component for Campus Recreation to connect every student. The Heskett Center is the #1 place to play badminton in all of Wichita. Everyday Court B in the Heskett Center upstairs gymnasium is full of friendly conversations and fierce action on the courts.

Dance: Multiple student organizations and over 17,000 students throughout the year reserved one of the three studios to practice cultural dances, get ready for Song Fest, Hippodrome or just have fun. It is critical to have spaces where students can gather and choose the recreation area that suits their need.

Intramural Sports

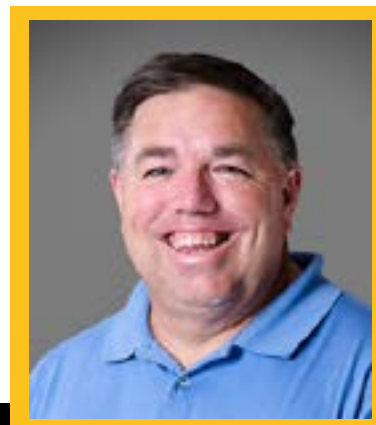

Intramural Sports continues to grow and offer a menu of competitive and fun events for the Campus Community.

Special Events

Fright Night, Pumpkin Run, Pool Party, Clash of the Colleges, and many more special events brought students together for a day of fun in a variety of activities and programs.

Student Staff

Campus Recreation employs 126 student staff from over 20 countries. These students benefited from applied learning and formed friendships throughout the year.

Campus Recreation
ASSESSMENT FY24

Wichita State University
Student Affairs

Campus Recreation programs and services enhance the student experience in many ways and evidence continues to demonstrate the degree to which various forms of activities and recreation influence multiple student related outcomes.

Retention directly correlates with a student's sense of community on campus. At Wichita State University, Campus Recreation fosters that community through the events, programs, and services offered annually. In the past year Campus Recreation hosted over 20 social, cultural, and educational events; students challenge themselves physically and mentally through participation in over 25 intramural sports; students developed leadership skills and comradery through participation in sports clubs and Shocker Rowing; we fostered a sense of belonging to hundreds of students, faculty, staff, and community members who visited our facilities, and supported over 100 student employees. Our staff take pride in developing a sense of community to all students we engage with by creating a supportive environment that fosters applied learning and helps students reach their goal of becoming a Wichita State graduate.

Finding a community and being active has proven to help with mental health. Campus Recreation is uniquely situated through exercise, activities, programs, and services to have a positive impact on mental health. For example, in the past two years the number of participants and teams have doubled in Sport Clubs which contributes to both belonging and exercise. Exercise is well known to support mental health by reducing anxiety, enhancing mood, increasing self-esteem, and strengthening cognitive function. There are numerous studies noting the benefits of utilizing exercise protocols in mental health initiatives from improved energy and sleep to reduced stress and better weight management. Positive mental health significantly improves retention at Wichita State University.

Campus Recreation supports the university in recruiting future Shockers through our many community-based initiatives like Boats and Bikes, partnerships with Club Parkinson's, swim lessons and large events like our Pumpkin Run and Wellness Expo. Campus Recreation also welcomes the Student Shocker Navigators who host tours of the Heskett Center facility frequently throughout the year and highlights all CR's programs and services. Furthermore, Campus Recreation runs events in collaboration with Admissions on Black and Yellow days (high school juniors, seniors, and college transfer students' recruitment). The Rowing team directly recruits students to come to Wichita State University who otherwise would not attend.

Campus Recreation outcomes are directly in line with the University goals and initiatives. The programs and services we offered and executed in this last year contributed towards being Student Centered, creating a vibrant Campus Culture, working towards inclusive excellence, and being an active partner who engages with the local community.

CAMPUS RECREATION'S CONTRIBUTION TO FULFILL THE MISSION OF WICHITA STATE'S STRATEGIC PLAN

Like many of those who once walked its campus, Wichita State's strategic plan shoots for the stars and proves that the university's pioneering spirit is alive and well. At the heart of the plan are vision and mission statements which clearly state the university's desire to chart a new course for higher learning while remaining dedicated to serving as a lifeblood to the region and doing its part to provide the highest quality of life possible to those who call it home.

VISION

To be one of the nation's premier urban public research universities, known for providing impactful applied learning experiences and driving prosperity for the people and communities we serve.

MISSION

The mission of Wichita State University is to be an essential educational, cultural and economic driver for Kansas and the greater public good.
