Preamble

All students of this University have a guaranteed safeguard for their rights as members of this Association: these rights exist because they are held to be the means through which mankind achieves its greatest fulfillment. A bill of rights exists to prevent encroachment upon this freedom.

This relationship should be no less for the academic community which seeks to promote similar ideals and associations. Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility.

To ensure that all students of the academic community of Wichita State University have access to the opportunities for growth and learning, this enumeration of the safeguard is intended. To ensure that this freedom is not betrayed, safeguards are incorporated that protect its permanence and create a responsible attitude in the minds of the students enjoying this liberty.

Article I: Classroom Freedom

Section 1. Protection of Freedom of Expression

Students should be free to take reasoned exception to the views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

Section 2. Protection Against Improper Academic Evaluation

Students are responsible for maintaining standards for academic performance established for courses in which they are enrolled. At the same time, they should have protection against prejudiced or capricious academic evaluation.
